**Core Competencies Needed from Small Business:**

Meeting the most critical Department of Defense and Homeland Security standards protecting facilities and operations both home and abroad is the focus of Moffatt & Nichol. The firm is one of the nation's leading providers of consulting, engineering and design services and is assisting clients worldwide in protecting operations, assets and infrastructure from crime, terrorism and other acts. Our staff has provided expert master planning and security services in a range of high-security settings ranging from military facilities, seaports, airports, rail yards, public utilities and heavy industrial operations to chemical, refinery, and a variety of government operations. We have designed security systems protecting facilities, building contents and assets ranging from artifacts to state-of-the-art technologies and equipment, to top secret and proprietary information. Our security system designs currently protect government officials, company executives,
